

Curriculum Intent

Our curriculum is based on four key aspects:

- To ensure all children receive high quality teaching from skilled practitioners in all aspects of the curriculum.
- To support children in developing the emotional literacy needed to ensure they are happy, feel safe and are ready to grow and learn in an inclusive environment.
- To ensure all children are given the knowledge and skills they need to excel both academically and socially.
- To motivate children to take ownership of their learning journey and strive to achieve their very best.

Curriculum Drivers

These will be driven by the following ideas:

- **Ambitious** – We aim to support every child to reach their full potential through offering a strong curriculum designed to challenge all.
- **Inclusive**- We know that every child is an individual and we want every child to feel safe and supported in our schools.
- **Knowledge Rich**- We aim to provide a curriculum which is rich in the knowledge children need.
- **Fluent**- We aim for our children to be fluent speakers and readers and to have quick recall of the taught knowledge from our curriculum.
